## **Guidance notes for completing the online application form The Comic Relief Local Communities 15-17**

### **PLEASE PRINT THESE OFF and READ BEFORE STARTING YOUR APPLICATION**

These are guidance notes to help you complete some of the key questions in the online application form for The Comic Relief Local Communities Programme at The London Community Foundation.

#### **Tips:**

- You can also hover over the ⓘ symbol next to each question on the online form for help on how to respond.
- Each large text box has a maximum of 300 words.
- Text boxes/fields marked with a red line need completing – without an answer you will not be able to submit your form.
- It is a good idea to draft your responses using a word processing programme such as Microsoft Word, so that you can check your spelling and word count as you go along. Please note: word and the application form treat word counts in different ways. For example Word counts B&YC as one word and the application form as three words.
- As you enter your information on the online form, remember to save your progress periodically by clicking on the 📄 symbol on the right hand side, to prevent you from losing your work in case of internet issues.

#### **Initial questions**

- **Please confirm you are not currently in receipt of funding directly from Comic Relief**  
Organisations currently in receipt of funding directly from Comic Relief are not able to apply for this Local Communities grants programme.
- **We also want to know if this is your first application for Comic Relief funding via a Community Foundation**  
Just because you have applied before does not mean you cannot apply again. We want to know how many organisations we are supporting have never received funding before.

### Which local authority will the activity mainly take place in?

Please enter details of the local authority area where the activity will mainly take place. If the activity takes place across multiple boroughs please select the central one or the borough where your organisation is based. Remember we cannot accept applications for work in the following Boroughs: City of London, Hackney, Newham and Tower Hamlets.

**Please provide a postcode which represents the geographical area you will benefit.**

Please provide the postcode where most of your beneficiaries reside, if there are multiple places please just pick one. If it is too difficult to distinguish please provide the postcode of your organisation.

**What needs and disadvantage will your project address and what opportunities will you create?**

Please tell us about your group's aims to address need and disadvantage in your area. We are interested in understanding more about the need for the project or activity. Have you undertaken any surveys, had feedback from current users, identified a gap in provision etc.? Is it because there is nothing else in the area? Has it been set up in response to local demand?

**How will you spend this grant to address need in your area?**

This is where we ask you to tell us about what you need the money for. If you are applying for capital equipment, tell us what you want to buy and what benefit it will have i.e. what you will use it for. If you are applying for ongoing activities or new work, what is it that you would like to do? For example:

*“We are requesting funding to train 10 new volunteers to deliver support to people who have experienced domestic violence. Each volunteer will complete an OCN accredited 6 day training course ‘volunteering with survivors of domestic violence’ which will equip them with increased knowledge and understanding of DV and increased skills provide practical and emotional support to survivors. Each volunteer will use their training to provide regular tailored support for an individual DV survivor, helping them to live a safe and healthy lives. Each volunteer will work with up to three individuals.”*

**Is this new work?**

Please check this box if the work proposed is new for your organisation. If you are applying to continue existing work please leave this blank.

**What positive changes would this grant make to the lives of people who use your project/service?**

What are the benefits or outcomes of your project? An outcome describes the benefits or changes that will happen as a result of your work i.e. the impact your work is having. Please provide outcomes for beneficiaries, and also consider outcomes for your organisation, partner organisations, and the area. Outcomes begin with ‘change’ words such as ‘improve’, or ‘reduce’. Words like ‘provide’ and ‘deliver’ are for objectives, not outcomes, because they refer to the activity that you will be undertaking rather than the change that you want to make.

Examples of outcomes for beneficiaries include:

- improved mental and health wellbeing
- increased confidence and independence
- improved skills and knowledge
- decrease in risky behaviour

Examples of outcomes for your organisation might include:

- improved governance
- improving the quality of service delivery
- expansion of service provision
- increased skills amongst staff and volunteers

It's likely you'll have a number of benefits or changes that you're aiming for – you can list them if you prefer.

**Please explain how you will collate, measure and report the benefits and changes that you describe above**

Please explain how you plan to track and measure the change that you hope to achieve through your project. You might plan to have informal discussions with staff or participants, ask staff to complete questionnaires, or gather people together in one place to feedback on the project. Using a variety of methods will enable you to gather detailed and rich information that will help you to know how well your project is doing. All the information you collate should therefore enable you to report on your progress towards achieving your outcomes, so make sure that for everything you want to measure you have a method of gathering information as evidence. Monitoring and evaluation should be an ongoing process that you undertake regularly throughout the lifetime of the project, not just at the end. If you are successful in securing a grant you will be required to provide an end-of-grant monitoring report. We will give you a copy of this report at the beginning of the grant so that you know what information you need to collate.

**Please tell us about your organisation's experience of helping people and the impact of your previous work; you may also want to tell us about the people involved in your project and why you are confident in their ability to make the project succeed.**

This is about your organisation's track record in delivering the proposed project or similar work you have delivered in the past. If you are new to delivering this type of work, please tell us about the skills you have in your organisation, that will help to ensure the project will achieve the intended impact. Tell us about any partnerships that you are involved in - especially if they are part of the delivery of your project

A strong answer will include clear evidence of the outcomes and success that your previous work has had. For example: for a project working with NEET young people (those Not in Education, Employment or Training) – "In the last year 30 out of 50 beneficiaries have gone back into full time education, 95% of beneficiaries reported an increase in confidence, etc..."

**Will the work continue beyond the life of this grant? If so, please indicate in what way and what funding you have secured or need to secure to deliver it.**

Some activities we fund will be one-off projects that don't ever take place again. You might be looking at running a pilot project that, if successful, you will organise again at a later date. You may also be asking for funding to support work you have been doing for several years. All of these activities are eligible, just tell us more here. Evidence may be required e.g. photographs, comments and views of people involved in the activity.

### Section 3: Impact

In this section we want you to think about the long term impact that this funding will have on your organisation's beneficiaries rather than the immediate internal impact for your organisation.

You can help us to achieve our vision and mission by delivering projects that make a difference and – importantly – by gathering evidence to show how your project has made an impact. This information is essential if we are to encourage more donors to support our future work. To help you collect the kind of evidence we need, we have created a framework that measures the impact of our grants. There are four themes you can apply for under the Comic Relief Local Communities Programme. Please remember we will only accept an application for the theme that is shown for the round as shown below:

Round	Theme	Deadline
22	Advance people's physical and mental health, wellbeing and safety	5pm Tuesday 1 <sup>st</sup> December 2015
23	Improve people's life skills, education, employability and enterprise	5pm Tuesday 1 <sup>st</sup> March 2016
24	Promote reduction of isolation and disadvantage and access to services	5pm Tuesday 6 <sup>th</sup> September 2016
25	Maximise people's ability to strengthen community cohesion and build social capacity	5pm Tuesday 6 <sup>th</sup> December 2016

- **Improve people's life skills, employability and enterprise** - We want to support a thriving city that creates opportunities for people to fulfil their potential, to become more self-sufficient and to build their confidence.
- **Maximise people's ability to strengthen community cohesion and build social capacity** - We want to strengthen and connect local organisations and improve local facilities so that people can live happier lives alongside each other.

- **Promote reduction of isolation and disadvantage and access to services** - We want people to be connected in their local communities and to their local services, so everyone has a chance to be included.
- **Advance people's physical and mental health, wellbeing and safety** - We want people to feel safe and connected in their communities, and to have more opportunities to improve their physical and mental health.

When applying you have to choose **four outcomes** to report on, two of which will need to be linked to **given theme**. The others can be any of the other outcomes listed. You will also have to choose up to **three indicators** per outcome to report on and set targets that you think you will achieve over the life of the project.

We have written a guide and helpful tool on how to choose the outcomes and indicators – Please see appendix A

### **How many people will benefit from this funding?**

The figure will appear as a total of the boxes completed below.

### **How many people will directly benefit from this grant?**

Please estimate how many people will directly benefit from any changes to your organisation which as a result of this funding, throughout the funding period. We realise that you cannot give exact figures but please estimate as accurately as possible. This information is important and will be used to evaluate the project at the end of the grant period.

People who will directly benefit from project activity and are typically involved on a one-to-one or group basis. Please note this is the total number of beneficiaries supported by your organisation and its activities, and should not include staff or volunteers unless volunteers are also beneficiaries.

### **Volunteers benefiting**

Tell us about the volunteers who will benefit from your project or service.

People who will work with or support the project's beneficiaries. They will generally be given training or other forms of guidance and support to enable them to help beneficiaries.

### **Other people benefiting**

Tell us about other people who will benefit from your project or service. For example family members who are not taking part in the project

These people can include the general public e.g., they might be people who attend awareness raising events and receive an information leaflet. You should not include those who are assumed to benefit because of their relationship with someone who is directly benefiting, e.g., the family members of a person directly benefiting. We expect that the numbers of other people benefiting will often be estimated

### **Beneficiaries**

From the **drop down list**, please click on the one group that best reflects **the majority** of the **beneficiaries** of your organisation, this will then be entered in the selection box. On doing this you will then be presented with a series of check boxes, tick any other relevant groups that will be affected. Please don't tick them all if they don't apply, just think about who the primary beneficiaries will be. This doesn't have to be 100% accurate, you're just giving an indication.

### **Ethnicity**

From the **drop down list**, please select one **ethnic** group that best reflects **the majority** of the users of your organisation and enter it in the box provided. Then, using the check boxes, tick any other ethnic groups that will be affected. Please don't tick them all if they don't apply, just think about who the primary groups will be. Again, this doesn't have to be 100% accurate, you're just giving an indication.

### **Issues**

We are interested in the **Issues** that will be addressed by this grant. From the **drop down list** **the primary** issue that will be addressed by this grant. Then, using the check boxes indicate any other issues that will be addressed.

### **Age groups**

Finally we would be interested in knowing which **Age groups** would benefit from this grant. Please enter in the text box / dropdown the age group that represents **the majority** of the beneficiaries of your organisation. Then, using the remaining check boxes indicate any other age groups that will benefit.

## **Section 4 – Project budget and additional information**

### **Project Budget**

This section asks you to provide details regarding the amount of money you are applying for and what type of items you will be spending it on. These figures should be inclusive of VAT.

#### **What is the total cost of the project?**

If you are asking us to fund part of a staff salary, for instance, what is the total salary each year? If you are asking us to contribute towards a project or activity, what are the total costs?

#### **How much money are you applying to us for?**

Please enter the amount of funding you are requesting from us.

#### **How much has been raised so far?**

If you are not asking us to fund the full costs, how much have you raised already through other fund raising, secured grants and income generation? If you have not raised anything yet please enter 0. Please don't leave this field blank.

**How did you raise the current amount/ from which sources have you received funding.**

Tell us here if how you obtained the money raised so far.

**Living wage.**

Please refer to the Fund Guidelines for information on the Living Wage

As outlined in the guidance we are piloting paying the Living Wage through the Local Communities programme. The Living Wage is £7.85 per hour outside London and £9.15 in London. We are asking groups to make their applications for any staff costs at the Living Wage rates, so please budget for this in the staff costs section below. We understand that for some groups paying a Living Wage can be difficult for a number of reasons, we would like to work with groups to see how we can support you to enable you to pay a Living Wage. Also if there are any general comments on what you think about us paying a Living Wage through our grants please put them in here!

**Budget breakdown**

Here you itemise the costs that will be incurred in running your project. The headings (staff cost, volunteer costs etc.) are examples of types of costs and the amount – you do not have to put a cost in each heading if it does not apply but there may be others that you need to include.

There are two cost boxes, one for the **total project cost for that type of cost** and one for the **amounts you are applying to us under that cost heading**.

The cost breakdown also allows you to enter the details behind the cost summary. These details should only refer to the elements of the project that are covered by your grant from us. Please give us a full breakdown of the costs as shown in the example below.

## Appendix A

### IMPACT ASSESSMENT

#### A guide on how to choose the outcomes and indicators for your application

The London Community Foundation's vision is of a strong and generous London where residents, business, government and civil society are inspired to act for the benefit of all who live in the city, leading the way in social action and philanthropic activity. Our mission is to make a difference to the lives of Londoners by connecting people who need help with those who are willing to give. We are dedicated to improving the lives of London's most disadvantaged. Child poverty, unemployment, isolation, homelessness, domestic violence and gang crime are just some of the issues we are tackling through our grant making.

You can help us to achieve our vision and mission by delivering projects that make a difference and – importantly – by gathering evidence to show how your project has made an impact. This information is essential if we are to encourage more donors to support our future work. To help you collect the kind of evidence we need, we have created a framework that measures the impact of our grants. There are six themes for this IMPACT framework:

- **Improve people's life skills, employability and enterprise** - We want to support a thriving city that creates opportunities for people to fulfil their potential, to become more self-sufficient and to build their confidence.
- **Maximise people's ability to strengthen community cohesion and build social capacity** - We want to strengthen and connect local organisations and improve local facilities so that people can live happier lives alongside each other.
- **Promote reduction of isolation and disadvantage and access to services** - We want people to be connected in their local communities and to their local services, so everyone has a chance to be included.
- **Advance people's physical and mental health, wellbeing and safety** - We want people to feel safe and connected in their communities, and to have more opportunities to improve their physical and mental health.
- **Connect people with the arts culture and heritage** - We want to create a city that values and takes pride in the excellence and diversity of arts and culture, where everyone feels encouraged to participate, and their efforts create a lasting legacy.

- **Transform people's access to, and engagement with, their environment** - We want to create a city that promotes and creates a safer, healthier, and more sustainable environment, where people in urban areas feel free and welcome to access community spaces.

There is a lot of information about impact assessment and the outcomes approach to project evaluation. You may find the following websites helpful:

<http://www.ces-vol.org.uk/>

<http://www.evaluation.org.uk/>

<http://mande.co.uk/>

<http://network.youthmusic.org.uk/learning/youth-music-evaluation-builder>

There are a number of outcomes – or changes – we want to measure for each theme, and a series of indicators to show evidence of change in a measurable way. When you apply for a grant you will need to choose the theme, outcomes and indicators that you will report against, once you have completed your project.

What do we mean by:

#### An **Outcome?**

Outcomes are the changes, benefits, learning and other effects that you can attribute to your projects activities they're the difference your project makes (CES, 2005)

#### An **Indicator?**

Indicators are the evidence you collect to show your progress in achieving the outcomes of your work. They may be about the number of people who have achieved something or feel different.

#### **Collecting evidence.**

In order to provide the numbers etc. for your report it is best to plan before you start the project how you will collect the evidence. You could consider taking registers of people who attend for example a training course, carry out interviews, and provide questionnaires for people to complete.

## Monitoring and Evaluation

When your funding comes to an end you will have to complete an online monitoring report in which you will have to tell us about how well you did not achieving your chosen outcomes and indicators. It's therefore very important for you to plan how you will collect the evidence to support your report. If you are successful in getting your work funded we will send you details of the reporting requirements with the offer letter.

### **Why do we ask you to report?**

Simply, we would like to know how the project has gone including what worked and what didn't. The report is both beneficial for you and us, The London Community Foundation.

### **What does The London Community Foundation use the information for?**

We require monitoring for various reasons. Firstly we have a responsibility to ensure grants are used properly to deliver high-quality projects that achieve relevant outcomes.

The London Community Foundation takes pride in gathering evidence from the information reported that allows us to make informed decisions when developing future funding programmes. By deciphering results we obtain from your monitoring we have the ability to identify gaps in provision and develop our knowledge about different types of work and the impact they're capable of having, building our expertise as grant maker. We're also able to tell the story of your work to other potential donors.

We use this **impact assessment framework** to collate relevant outcomes and indicators enabling us to evidence the positive difference the groups we have funded are making.

### **How will the report help you?**

The report will allow for you to develop your practice from reflecting on work carried out. As an organisation your monitoring will act as evidence amplifying your ability to deliver a project effectively and efficiently for prospective funders, investors, etc. Your monitoring report has the ability to generally feed into the improvement of your organisation. It's down to you as to how much you put into your process of monitoring and evaluating and subsequently how much you benefit from it.

## **What is the difference between monitoring and evaluation?**

### **Monitoring**

Monitoring is about collecting information that will help you answer questions about your project. It is important that this information is collected in a planned, organised and routine way. You can use the information you gather to report on your project and to help you evaluate' (Charities Evaluation Services).

Monitoring is an on-going task that would have already started at the planning stages of a project. You would have collected key information on a variety of things relating to your project. Before you started the project you chose various outcomes and indicators to measure your work against – these are what you have to monitor your work against.

Monitoring allows results, procedures and practices to be recorded and eventually acts as a catalyst to direct, develop and learn. The information obtained from monitoring is then used for evaluation purposes.

### **Evaluation**

'Evaluation is about using monitoring and other information you collect to make judgements about your project. It is also about using the information to make changes and improvements' (Charities Evaluation Service).

A good evaluation should be an objective assessment. The evaluation is in essence an appraisal of your findings, looking into themes as such relevancy, effectiveness, efficiency, impact and sustainability.

## Applying for Funding

When applying you will have to choose **four outcomes** to report on, two of which will need to be linked to **given theme for the Comic Relief Local Communities Programme**. The others can be any of the other outcomes listed. You will also have to choose up to **three indicators** per outcome to report on and set targets that you think you will achieve over the life of the project.

From the given theme for the round through the whole list first and pick the outcomes that best reflect what you are hoping to achieve. Once you have picked those outcomes, you can work sideways to identify indicators. You will need to give us realistic target numbers for each of the indicators you have chosen. Please make these a best guess and do not overestimate the numbers you might achieve – be honest with us! High numbers will not help in the assessment process when we come back and question you on them. We need to believe that they are achievable.

Remember if you have any questions on this or need help with the application form please call us on 020 7582 5117 or email [applications@londoncf.org.uk](mailto:applications@londoncf.org.uk)
