Please include details of your social media sites if you have them

Telephone/Email

Average yearly income

Please let us know your organisation's average income over the last three years. To calculate this, add up the total income of your organisation in your last three complete years, and divide by three. If you have been in existence for less than three years, please let us know the average income over the lifetime of your group to date. You may be asked to provide evidence of this.

What are the aims of your organisation and what activities or services do you provide?

What are your aims/mission/objectives? What activity do you usually deliver? For who? Where? This question is about explaining your usual day to day activity.

SECTION 2- About your grant application

Project Funding Start/End dates

Does the project have start and finish dates? If the answer is yes, add the start and finish dates. If your project is on-going, you should enter the start and finish dates of the funding period.

Which Local Authority will the activity take place in?

Please enter details of the local authority area where the activity will mainly take place. If the activity takes place across multiple boroughs please select the central one or the borough where your organisation is based. The majority of the activity must take place one of the 5 eligible boroughs (Barking & Dagenham/Brent/Lewisham/Greenwich/Newham).

Postcode

Please provide the postcode where most of your beneficiaries reside, if there are multiple places please just pick one. If it is too difficult to distinguish please provide the postcode of your organisation.

How does your project address the Primary Aim of getting more inactive people more active?

How can you demonstrate that the beneficiaries you target are inactive? How can you show that this activity/service will lead to an increase in activity levels from inactive/low activity to active or more active? How can you demonstrate that you will be able to engage people in physical activity?

What would you do with the grant? Please describe the activity that will take place.

Tell us about what activity/services you will deliver. Please make sure you explain what physical activity/sport the beneficiaries will be involved in. For how many people? How often? Where? Who will deliver this? Will any other services/activities be delivered?

Which of the Programme Goals does your project meet? You can select more than one, if it is relevant. (Hold down CTRL to multi-select)

In addition to increasing levels of physical activity in the 5 priority boroughs, we also want to support groups who harness sport and physical activity as a way to connect with their communities; to engage and inspire those facing disadvantage, to reconnect people with society and to provide hope of turning lives around. In addition to getting inactive people active, we will prioritise projects that also address any of the following Programme Goals;

- Reduce isolation
- Encourage greater social cohesion

- Contribute towards crime prevention
- Provide physical activities for lower income families

You do not need to address all of these programme goals. You should identify which goals your project addresses and demonstrate this.

How does your project address one or more of the four Programme Goals? (Reduce isolation; Encourage greater social cohesion; Contribute towards crime prevention; Provide physical activities for lower income families?)

We will prioritise groups who also harness sport and physical activity as a way to connect with their communities; to engage and inspire those facing disadvantage, to reconnect people with society and to provide hope of turning lives around. You do not need to meet more than one Programme Goal, but please detail HOW your project meets the programme goal(s) you have identified.

How would you measure and report the benefits and impact this project is having?

How will you measure your activity and the impact it is having? You will need to show how you will demonstrate the levels of activity BEFORE the project and AFTER the project. How can you demonstrate that your project has made the difference? You might do questionnaires, surveys, keep a log of users of your services for example.

What local networks or partnerships are your group involved in that are relevant to the delivery of this project?

Who do you work with to deliver your activity- to signpost beneficiaries, share resources, train staff for example. Tell us about any partnerships that you are involved in - especially if they are part of the delivery of your project.

SECTION 3- Impact

In this section we are asking for the impact you think your project will have at the end of the funded period. The answers you'll be providing are your best estimate of how many people/hours etc. you will have reached at the end of the year.

By setting these numbers realistically at the beginning and gathering evidence throughout the life of the funded project, by the end of the year you will be able to clearly show the impact this project has had.

There are six themes to choose from for this IMPACT framework:

- **Improve people's life skills, employability and enterprise** - We want to support a thriving city that creates opportunities for people to fulfil their potential, to become more self-sufficient and to build their confidence.

- **Maximise people’s ability to strengthen community cohesion and build social capacity** - We want to strengthen and connect local organisations and improve local facilities so that people can live happier lives alongside each other.
- **Promote reduction of isolation and disadvantage and access to services** - We want people to be connected in their local communities and to their local services, so everyone has a chance to be included.
- **Advance people’s physical and mental health, wellbeing and safety** - We want people to feel safe and connected in their communities, and to have more opportunities to improve their physical and mental health.
- **Connect people with the arts culture and heritage** - We want to create a city that values and takes pride in the excellence and diversity of arts and culture, where everyone feels encouraged to participate, and their efforts create a lasting legacy.
- **Transform people’s access to, and engagement with, their environment** - We want to create a city that promotes and creates a safer, healthier, and more sustainable environment, where people in urban areas feel free and welcome to access community spaces.

When applying you have to choose **three outcomes** to report on, two of which will need to be linked to **one of the IMPACT themes**. The others can be any of the other outcomes listed. You will also have to choose up to **three indicators** per outcome to report on and set targets that you think you will achieve over the life of the project.

We have written a guide and helpful tool on how to choose the outcomes and indicators – **Please see Appendix A for details.**

To complete the impact section on the form:

1. Select the theme from the drop down list – this will give you the range of outcomes in the drop down list attached to the impact theme.
2. Then select your 1st outcome from the drop down list
3. This will then open up the available indicators – select the indicators and fill in the anticipated numbers. **Please remember to tick the indicators that you have selected**
4. Then select your 2nd outcome from the drop down list
5. This will then open up the available indicators – select the indicators and fill in the anticipated numbers. **Please remember to tick the indicators that you have selected**
6. Then repeat for your 3rd and 4th outcome – these can be any of the others from the full list of outcomes across all themes.

Please estimate the number of inactive people that this project will target.

How many inactive people do you anticipate will BECOME ACTIVE as a result of this funding?

Of those inactive people mentioned above, based on the answers given in the application form, how many do you anticipate will become active by the end of this funded project?

Volunteers benefiting

These should be people who will work with or support the project's beneficiaries. They will generally be given training or other forms of guidance and support to enable them to help beneficiaries. They would not usually be paid for their activity but can typically receive expenses or reimbursement for travel.

Primary beneficiary – select a single option to represent the primary beneficiary group for this grant

From the drop down list, please click on the one group that best reflects the majority of the beneficiaries of your organisation who are victims of crime, this will then be entered in the selection box. On doing this you will then be presented with a series of check boxes, tick any other relevant

groups that will be affected. Please don't tick them all if they don't apply, just think about who the primary beneficiaries will be. This doesn't have to be 100% accurate, you're just giving an indication.

Ethnicity – select a single option to represent the primary beneficiary group for this grant

See drop down options. Please select one ethnic group that best reflects the majority of the users of this facility or service.

Primary issue - select a single option to represent the primary issue that will be addressed by this grant.

Finally, we would be interested in knowing which Age groups would benefit from this grant. Please enter in the text box / dropdown the age group that represents the majority of the beneficiaries of your organisation who are victims of crime. Then, using the remaining check boxes indicate any other age groups that will benefit.

SECTION 4- Project Budget and additional information

Project Budget

This section asks you to provide details regarding the amount of money you are applying for and what type of items you will be spending it on.

What is the total cost of the project?

If you are asking us to fund some of your running costs, for instance, what is the total you need for running costs each year? If you are asking us to contribute towards an event, project or activity, what are the total costs? This must exclude any in-kind support – you can tell us about that in a later question.

How much has been raised so far?

You do not need to raise any match funding and you can ask for the full costs of delivering your project. However, if you are not asking us to fund the full costs, how much have you raised already?

How much money are you applying to us for?

Please enter the amount you are requesting from us. This can be minimum £1,000 maximum £10,000

Please tell us about any in-kind support that will be given to the project and its value. In-kind support includes volunteer hours (valued at £13/hour), any equipment, space, or publicity for example that you may be given free of charge.

Living Wage

Have you budgeted all staff costs at the Living Wage? Please provide any comments on any difficulties or positive impact this will have on your organisation (please type N/A if this does not apply to you i.e. you are not applying for salary costs)

As outlined in the guidance we are piloting paying the Living Wage through the Local Communities programme. The Living Wage is £8.25 per hour outside London and £9.40 in London. We are asking groups to make their applications for any staff costs at the Living Wage rates, so please budget for this in the staff costs section below. We understand that for some groups paying a Living Wage can be difficult for a number of reasons, we would like to work with groups to see how we can support you to enable you to pay a Living Wage. Also if there are any general comments on what you think about us paying a Living Wage through our grants please put them in here!

Budget breakdown

Here you itemise the costs that will be incurred in running your project. The headings (staff cost, volunteer costs etc.) are examples of types of costs and the amount – you do not have to put a cost in each heading if it does not apply but there may be others that you need to include.

There are two cost boxes, one for the total project cost for that type of cost and one for the amounts you are applying to us under that cost heading.

The cost breakdown also allows you to enter the details behind the cost summary. These details should only refer to the elements of the project that are covered by your grant from us. Please give us a full breakdown of the costs as shown in the example below.

Staff Costs

Requested amount	630
Total amount	1000

Breakdown

3 workers@ £7.50 an hour (14 weekly sessions of 2 hours)
--

Volunteer Costs

Capital Costs (Equipment)

Note for volunteer expenses - Only out-of-pocket expenses can be paid to volunteers, who should submit receipts and/or proof of payment such as bus/rail tickets for your records. Volunteers should not be paid a flat rate as they will be classed as employees of your organisation.

Appendix A

IMPACT ASSESSMENT

A guide on how to choose the outcomes and indicators for your application

The London Community Foundation's vision is of a strong and generous London where residents, business, government and civil society are inspired to act for the benefit of all who live in the city, leading the way in social action and philanthropic activity. **Our mission** is to make a difference to the lives of Londoners by connecting people who need help with those who are willing to give. We are dedicated to improving the lives of London's most disadvantaged. Child poverty, unemployment, isolation, homelessness, domestic violence and gang crime are just some of the issues we are tackling through our grant making.

You can help us to achieve our vision and mission by delivering projects that make a difference and – importantly – by gathering evidence to show how your project has made an impact. This information is essential if we are to encourage more donors to support our future work. To help you collect the kind of evidence we need, we have created a framework that measures the impact of our grants. There are six themes for this IMPACT framework:

- **Improve people's life skills, employability and enterprise** - We want to support a thriving city that creates opportunities for people to fulfil their potential, to become more self-sufficient and to build their confidence.
- **Maximise people's ability to strengthen community cohesion and build social capacity** - We want to strengthen and connect local organisations and improve local facilities so that people can live happier lives alongside each other.
- **Promote reduction of isolation and disadvantage and access to services** - We want people to be connected in their local communities and to their local services, so everyone has a chance to be included.
- **Advance people's physical and mental health, wellbeing and safety** - We want people to feel safe and connected in their communities, and to have more opportunities to improve their physical and mental health.
- **Connect people with the arts culture and heritage** - We want to create a city that values and takes pride in the excellence and diversity of arts and culture, where everyone feels encouraged to participate, and their efforts create a lasting legacy.
- **Transform people's access to, and engagement with, their environment** - We want to create a city that promotes and creates a safer, healthier, and more sustainable environment, where people in urban areas feel free and welcome to access community spaces.

There is a lot of information about impact assessment and the outcomes approach to project evaluation. You may find the following websites helpful:

<http://www.ces-vol.org.uk/>

<http://www.evaluation.org.uk/>

<http://mande.co.uk/>

<http://network.youthmusic.org.uk/learning/youth-music-evaluation-builder>

There are a number of outcomes – or changes – we want to measure for each theme, and a series of indicators to show evidence of change in a measurable way. When you apply for a grant you will need to choose the theme, outcomes and indicators that you will report against, once you have completed your project.

What do we mean by:

An Outcome?

Outcomes are the changes, benefits, learning and other effects that you can attribute to your projects activities they`re the difference your project makes (CES, 2005)

An Indicator?

Indicators are the evidence you collect to show your progress in achieving the outcomes of your work. They may be about the number of people who have achieved something or feel different.

Collecting evidence.

In order to provide the numbers etc. for your report it is best to plan before you start the project how you will collect the evidence. You could consider taking registers of people who attend for example a training course, carry out interviews, and provide questionnaires for people to complete.

Monitoring and Evaluation

When your funding comes to an end you will have to complete an online monitoring report in which you will have to tell us about how well you did in achieving your chosen outcomes and indicators. It's therefore very important for you to plan how you will collect the evidence to support your report. If you are successful in getting your work funded we will send you details of the reporting requirements with the offer letter.

Why do we ask you to report?

Simply, we would like to know how the project has gone including what worked and what didn't. The report is both beneficial for you and us, The London Community Foundation.

What does The London Community Foundation use the information for?

We require monitoring for various reasons. Firstly we have a responsibility to ensure grants are used properly to deliver high-quality projects that achieve relevant outcomes.

The London Community Foundation takes pride in gathering evidence from the information reported that allows us to make informed decisions when developing future funding programmes. By deciphering results we obtain from your monitoring we have the ability to identify gaps in provision and develop our knowledge about different types of work and the impact they're capable of having, building our expertise as grant maker. We're also able to tell the story of your work to other potential donors.

We use this **impact assessment framework** to collate relevant outcomes and indicators enabling us to evidence the positive difference the groups we have funded are making.

How will the report help you?

The report will allow for you to develop your practice from reflecting on work carried out. As an organisation your monitoring will act as evidence amplifying your ability to deliver a project effectively and efficiently for prospective funders, investors, etc. Your monitoring report has the ability to generally feed into the improvement of your organisation. It's down to you as to how much you put into your process of monitoring and evaluating and subsequently how much you benefit from it.

What is the difference between monitoring and evaluation?

Monitoring

Monitoring is about collecting information that will help you answer questions about your project. It is important that this information is collected in a planned, organised and routine way. You can use the information you gather to report on your project and to help you evaluate' (Charities Evaluation Services).

Monitoring is an on-going task that would have already started at the planning stages of a project. You would have collected key information on a variety of things relating to your project. Before you started the project you chose various outcomes and indicators to measure your work against – these are what you have to monitor your work against.

Monitoring allows results, procedures and practices to be recorded and eventually acts as a catalyst to direct, develop and learn. The information obtained from monitoring is then used for evaluation purposes.

Evaluation

'Evaluation is about using monitoring and other information you collect to make judgements about your project. It is also about using the information to make changes and improvements' (Charities Evaluation Service).

A good evaluation should be an objective assessment. The evaluation is in essence an appraisal of your findings, looking into themes as such relevancy, effectiveness, efficiency, impact and sustainability.

Applying for Funding

When applying you will have to choose **three outcomes** to report on, two of which will need to be linked to **one of the IMPACT themes**. The others can be any of the other outcomes listed. You will also have to choose up to **three indicators** per outcome to report on and set targets that you think you will achieve over the life of the project.

In order to choose the theme that best fits your project we would advise that you read through the whole list first and pick the outcomes that best reflect what you are hoping to achieve. Once you have picked those outcomes, you can work upwards to find a theme and sideways to identify indicators. It is very possible that your project may fit into more than one theme, but choose the one with the best outcomes for the specific work funded by this grant. You will need to give us realistic target numbers for each of the indicators you have chosen. Please make these a best guess and do not overestimate the numbers you might achieve – be honest with us! High numbers will not help in the assessment process when we come back and question you on them. We need to believe that they are achievable.

Remember if you have any questions on this or need help with the application form please call us on 020 7582 5117 or email applications@londoncf.org.uk

To complete the impact section on the form

1. Select the theme from the drop down list – this will give you the range of outcomes in the drop down list attached to the impact theme.
