Fund guidelines

About the Fund

The Lambeth Community Fund is a charitable venture set up to support the borough today and long into the future, responding over time to the changing needs of local people. It was established in 2008 by the transfer of the trusteeship of the Pedlar's Acre endowment from Lambeth Council. The Lambeth Community Fund is also made up of a number of other endowments. We have now consolidated all these separate programmes so that community groups can apply to **one fund with one set of criteria**.

The Lambeth Community Fund focuses on making Lambeth a **healthy, safe and sustainable place** to call home. This focus covers a range of components that an individual needs to live a full and well-rounded life in the borough. We achieve this through the three themes below.

Fund themes

All applications must address at least one of the following themes:

1. **Resilient Futures**- helping communities to create a clean, vibrant and climate resilient borough. This theme is about environmental focused work that will improve the local area so that people can lead healthier, happier lives.
2. **Safer Communities**- focusing on work that will improve safety and community connections across the borough. This theme is about community projects that will help everyone feel safe and secure in all places.
3. **A Place Called Home**- creating the conditions to grow up and age well within the borough. This theme is about projects promoting healthy and active lives, where everyone can contribute to an inclusive economy and have a place to call home.

Fund Criteria:

Your application must address one of the above three fund themes and your organisation **must be based in Lambeth**. Additionally, applications should show how they:

- Work with the most disadvantaged members of the community, those who are not currently accessing services.
- Actively involve the communities who will benefit from the grant in planning projects and making it happen.
- Work in partnership or link with other Lambeth organisations.

We encourage applications from organisations that have not previously been funded through The Lambeth Community Fund and will prioritise funding towards these organisations this year.

Most of the funding available is flexible, however, we have some specific funding to meet certain criteria. Your application must still address one of the three fund themes (above) but if your project also addresses one of the following, please highlight this in your application:

- Benefits the Portuguese-speaking community.
- Supports young people aged under 25 into positive activities. This includes supporting NEET young people (those not in education, employment, or training) into education, training, or apprenticeships.

All projects **must be for the benefit of Lambeth residents**, and we expect activities to take place within the borough, unless there is a good reason for them not to – for example, the project includes a residential trip. The fund is aimed at small, grassroots organisations, and we are particularly interested in projects that are led and delivered by the communities who will benefit. **Your organisation must be based in Lambeth.**

Funding Available:

There is around **£280,000 available for grants**.

How much can I apply for?

Grants up to **£10,000 per year for two years (£20,000 in total)**.

Organisations with total income in their last financial year above **£5,000** should not apply for more than 50% of their annual turnover.

What can I apply for?

We will fund both new and existing projects.

You can apply for any costs towards your project, including e.g., staff/sessional costs associated with delivering the project, volunteer expenses, venue hire, materials and small equipment, insurance.

We encourage applicants to follow the principles of 'full cost recovery' and include core costs within the budget, i.e. including an appropriate portion of the organisation's rent, administrative costs and utility bills. For further information please see: www.culturehive.co.uk/wp-content/uploads/2014/05/Full-cost-recovery.pdf.

Who can apply?

Lambeth based constituted community groups, registered charities, charitable incorporated organisations (CIOs), companies limited by guarantee (without shares), or community interest companies (CICs) (without shares) with an annual income of £250,000 or less are all eligible to apply to the fund. Monitoring and evaluation

Monitoring and evaluating our grants enables us to better understand the impact of our grant-making. It helps us to understand community need, enables us to learn from our grant-making and inform future strategies, and enables us to show our supporters the impact of their donations and hopefully encourage them to give more. It should also help you measure the difference that your project has made, collect valuable information on how service users have benefited from your work, what works and what doesn't, and also demonstrate to funders (and donors) the value of your work.

Monitoring and evaluation is therefore a key part of our work, and all grantees are required to submit an end of grant monitoring report. For organisations awarded two-year funding, they will also be required to submit a short interim report, after the first year of the project. Full details on the information grantees need to collect will be given to successful applicants when the grant is awarded.

Living Wage Funder

The London Community Foundation is a Living Wage Funder. This scheme, run by the Living Wage Foundation means that LCF will actively encourage and support applications from organisations willing to pay staff the real Living Wage (currently £11.95 per hour in London), or higher.

If you are applying for funding of any staff costs (this could include existing staff members, sessional workers, part-time or full-time posts, freelance workers) you should budget these at the Living Wage or above. We are sensitive to circumstances where applicants feel that taking up the Living Wage could cause difficulties, in these instances, please explain the circumstances in the Living Wage section of the application form. This does not require employers to pay the Living Wage to apprentices or interns although we recommend it as best practice for employers who can afford to do so.

You can learn more about The Living Wage Funder Scheme at <https://www.livingwage.org.uk/living-wage-funders>

Some top tips for applications

- Draft your responses before completing the online form
- Make sure that every question has been answered in full (the online form will prompt you)
- Be clear about how you propose to meet the fund criteria and reach your target beneficiaries
- Ensure your budget section has a clear breakdown of all the costs associated with your project
- Get somebody to read through the application before sending, preferably someone who knows nothing about the project. This is a great way to pick up on any mistakes or lack of information, and rectify it before submitting
