Peabody Community Fund – Online Application Form Guidelines

These are guidance notes to help you complete some of the key questions in the online application form for the Peabody Community Fund at The London Community Foundation.

Tips:

- You can also hover over the ⓘ symbol next to each question on the online form for help on how to respond.
- Each of the large text boxes will have a maximum word limit.
- Text boxes/fields marked with a red line need completing – without an answer you will not be able to submit your form.
- It is a good idea to draft your responses using a word processing programme such as Microsoft Word, so that you can check your spelling and word count as you go along. Please note: word and the application form treat word counts in different ways. For example Word counts B&YC as one word and the application form as three words.
- As you enter your information on the online form, remember to save your progress periodically by clicking on the  symbol on the right hand side, to prevent you from losing your work in case of internet issues.

Section 3: Impact

You can help us to achieve our vision and mission by delivering projects that make a difference and – importantly – by gathering evidence to show how your project has made an impact. This information is essential if we are to encourage more donors to support our future work. To help you collect the kind of evidence we need, we have created a framework that measures the impact of our grants. There are six themes for this IMPACT framework:

- **Improve people's life skills, employability and enterprise** - We want to support a thriving city that creates opportunities for people to fulfil their potential, to become more self-sufficient and to build their confidence.
- **Maximise people's ability to strengthen community cohesion and build social capacity** - We want to strengthen and connect local organisations and improve local facilities so that people can live happier lives alongside each other.
- **Promote reduction of isolation and disadvantage and access to services** - We want people to be connected in their local communities and to their local services, so everyone has a chance to be included.
- **Advance people's physical and mental health, wellbeing and safety** - We want people to feel safe and connected in their communities, and to have more opportunities to improve their physical and mental health.
- **Connect people with the arts culture and heritage** - We want to create a city that values and takes pride in the excellence and diversity of arts and culture, where everyone feels encouraged to participate, and their efforts create a lasting legacy.
- **Transform people's access to, and engagement with, their environment** - We want to create a city that promotes and creates a safer, healthier, and more sustainable environment, where people in urban areas feel free and welcome to access community spaces.

When applying you have to choose **two outcomes** to report on, one of which will need to be linked to the IMPACT theme you selected above. The second outcome can be any of the other outcomes listed. You will also have to choose up to **three indicators** per outcome to report on and set targets that you think you will achieve over the life of the project. The third and fourth outcomes are optional.

We have written a guide and helpful tool on how to choose the outcomes and indicators – Please see appendix A for details.

To complete the impact section on the form

1. Select the theme from the drop down list – this will give you the range of outcomes in the drop down list attached to the impact theme

How many people will directly benefit from this grant?

Please estimate the total number of people who will participate / benefit from the proposed project. We realise that you may not be able to give exact figures but please estimate as accurately as possible. This information is important and will be used to evaluate the project at the end of the grant period.

How many of the people benefitting will be Peabody residents?

Please estimate the number of the project's beneficiaries who will be Peabody residents. There is no set percentage, however, the majority of beneficiaries should live in Peabody housing.

How many volunteers will help to deliver or take part in this project?

Will any volunteers be taking part in this project and if so, how many? They would not usually be paid for their activity but can typically receive expenses or reimbursement for travel.

Beneficiaries

From the **drop down list**, please click on the one group that best reflects **the majority** of the **beneficiaries** of your organisation, this will then be entered in the selection box. On doing this you will then be presented with a series of check boxes, tick any other relevant groups that will be affected. Please don't tick them all if they don't apply, just think about who the primary beneficiaries will be. This doesn't have to be 100% accurate, you're just giving an indication.

Ethnicity

From the **drop down list**, please select one **ethnic** group that best reflects **the majority** of the users of your organisation and enter it in the box provided. Then, using the check boxes, tick any other ethnic groups that will be affected. Please don't tick them all if they don't apply, just think about who the primary groups will be, and give an indication of the participating groups.

Issues addressed

We are interested in the **issues** that will be addressed by this grant. From the **drop down list the primary** issue that will be addressed by this grant. Then, using the check boxes indicate any other issues that will be addressed.

Age Group

We would be interested in knowing which **age groups** would benefit from this grant. Please enter in the text box / dropdown the age group that represents **the majority** of the beneficiaries of your organisation. Then, using the remaining check boxes indicate any other age groups that will benefit.

What is the total cost of the project? (If applying for 2 year funding, please give the total project cost for 2 years)

You can ask for the full cost, although providing a contribution to the total cost is advised. Project costs are the priority for this Fund (i.e. sessional and venue costs), although some running costs can be requested. If you are asking us to contribute towards an activity or larger project, what are the total costs of the whole project? The total cost here should not include in-kind costs, as these are calculated separately and on top of the total project cost.

How much has been raised so far?

If you are not asking us to fund the full costs, how much have you raised already? If none please enter 0 in this box. You do not have to secure match funding from elsewhere, however if you have other funding contributing to this project, please state the amount here.

This Fund currently considers funding applications for a maximum of 2 years.

Are you seeking other funding towards this project?

Living Wage

As outlined in the Fund Guidelines we are now a Living Wage Friendly Funder. This scheme, run by the Living Wage Foundation means that The London Community Foundation will actively encourage and support applications from organisations willing to pay staff the Living Wage which is £10.55 per hour in London. We are asking groups to make their applications for any staff costs at the Living Wage rates, so please budget for this in the project's staff costs. We understand that for some groups paying a Living Wage can be difficult for a number of reasons, we would like to work with groups to see how we can support you to enable you to pay a Living Wage.

Budget breakdown

Here you itemise the costs that will be incurred in running your project only. The headings; staff costs, volunteer costs, etc.; are examples of types of costs and the amount – you do not have to put a cost in each heading if it does not apply but there may be others that you need to include. Please note, if applying for 2 year funding, please provide the costs required for year 1 and then year 2 in each sub-section (please see example below).

There are two cost boxes, one for the **total project cost for that type of cost** and one for the **amount you are applying to us under that cost heading**.

Appendix A

IMPACT ASSESSMENT

A guide on how to choose the outcomes and indicators for your application

The London Community Foundation's vision is of a strong and generous London where residents, business, government and civil society are inspired to act for the benefit of all who live in the city, leading the way in social action and philanthropic activity. **Our mission** is to make a difference to the lives of Londoners by connecting people who need help with those who are willing to give. We are dedicated to improving the lives of London's most disadvantaged. Child poverty, unemployment, isolation, homelessness, domestic violence and gang crime are just some of the issues we are tackling through our grant making.

You can help us to achieve our vision and mission by delivering projects that make a difference and – importantly – by gathering evidence to show how your project has made an impact. This information is essential if we are to encourage more donors to support our future work. To help you collect the kind of evidence we need, we have created a framework that measures the impact of our grants. There are six themes for this IMPACT framework:

- **Improve people's life skills, employability and enterprise** - We want to support a thriving city that creates opportunities for people to fulfil their potential, to become more self-sufficient and to build their confidence.
- **Maximise people's ability to strengthen community cohesion and build social capacity** - We want to strengthen and connect local organisations and improve local facilities so that people can live happier lives alongside each other.
- **Promote reduction of isolation and disadvantage and access to services** - We want people to be connected in their local communities and to their local services, so everyone has a chance to be included.
- **Advance people's physical and mental health, wellbeing and safety** - We want people to feel safe and connected in their communities, and to have more opportunities to improve their physical and mental health.
- **Connect people with the arts culture and heritage** - We want to create a city that values and takes pride in the excellence and diversity of arts and culture, where everyone feels encouraged to participate, and their efforts create a lasting legacy.
- **Transform people's access to, and engagement with, their environment** - We want to create a city that promotes and creates a safer, healthier, and more sustainable environment, where people in urban areas feel free and welcome to access community spaces.

There is a lot of information about impact assessment and the outcomes approach to project evaluation. You may find the following websites helpful:

<https://www.ncvo.org.uk/practical-support/consultancy/ncvo-charities-evaluation-services>

<http://www.evaluation.org.uk/>

<http://mande.co.uk/>

<http://network.youthmusic.org.uk/learning/youth-music-evaluation-builder>

There are a number of outcomes – or changes – we want to measure for each theme, and a series of indicators to show evidence of change in a measurable way. When you apply for a grant you will need to choose the theme, outcomes and indicators that you will report against, once you have completed your project.

What do we mean by:

An **Outcome?**

Outcomes are the changes, benefits, learning and other effects that you can attribute to your project's activities; they're the difference your project makes (CES, 2005)

An **Indicator?**

Indicators are the evidence you collect to show your progress in achieving the outcomes of your work. They may be about the number of people who have achieved something or feel different.

Collecting evidence.

In order to provide the numbers etc. for your report it is best to plan before you start the project how you will collect the evidence. You could consider taking registers of people who attend for example a training course, carry out interviews, and provide questionnaires for people to complete.

Monitoring and Evaluation

When your funding comes to an end you will have to complete an online monitoring report in which you will have to tell us about how well you did in achieving your chosen outcomes and indicators. It's therefore very important for you to plan how you will collect the evidence to support your report. If you are successful in getting your work funded we will send you details of the reporting requirements with the offer letter.

Why do we ask you to report?

Simply, we would like to know how the project has gone including what worked and what didn't. The report is both beneficial for you and us, The London Community Foundation.

What does The London Community Foundation use the information for?

We require monitoring for various reasons. Firstly we have a responsibility to ensure grants are used properly to deliver high-quality projects that achieve relevant outcomes.

The London Community Foundation takes pride in gathering evidence from the information reported that allows us to make informed decisions when developing future funding programmes. By deciphering results we obtain from your monitoring we have the ability to identify gaps in provision and develop our knowledge about different types of work and the impact they're capable of having, building our expertise as grant maker. We're also able to tell the story of your work to other potential donors.

We use this **impact assessment framework** to collate relevant outcomes and indicators enabling us to evidence the positive difference the groups we have funded are making.

How will the report help you?

The report will allow for you to develop your practice from reflecting on work carried out. As an organisation your monitoring will act as evidence amplifying your ability to deliver a project effectively and efficiently for prospective funders, investors, etc. Your monitoring report has the ability to generally feed into the improvement of your organisation. It's down to you as to how much you put into your process of monitoring and evaluating and subsequently how much you benefit from it.

What is the difference between monitoring and evaluation?

Monitoring

- Monitoring is about collecting information that will help you answer questions about your project. It is important that this information is collected in a planned, organised and routine way. You can use the information you gather to report on your project and to help you evaluate' (Charities Evaluation Services).
- Monitoring is an on-going task that would have already started at the planning stages of a project. You would have collected key information on a variety of things relating to your project. Before you started the project you chose various outcomes and indicators to measure your work against – these are what you have to monitor your work against.
- Monitoring allows results, procedures and practices to be recorded and eventually acts as a catalyst to direct, develop and learn. The information obtained from monitoring is then used for evaluation purposes.

Evaluation

'Evaluation is about using monitoring and other information you collect to make judgements about your project. It is also about using the information to make changes and improvements' (Charities Evaluation Service).

A good evaluation should be an objective assessment. The evaluation is in essence an appraisal of your findings, looking into themes as such relevancy, effectiveness, efficiency, impact and sustainability.

Applying for Funding

When applying you will have to choose **two outcomes** to report on, one of which will need to be linked to **one of the IMPACT themes**. The others can be any of the other outcomes listed. You will also have to choose up to **three indicators** per outcome to report on and set targets that you think you will achieve over the life of the project.

In order to choose the theme that best fits your project we would advise that you read through the whole list first and pick the outcomes that best reflect what you are hoping to achieve. Once you have picked those outcomes, you can work upwards to find a theme and sideways to identify indicators. It is very possible that your project may fit into more than one theme, but choose the one with the best outcomes for the specific work funded by this grant. You will need to give us realistic target numbers for each of the indicators you have chosen. Please make these a best guess and do not overestimate the numbers you might achieve – be honest with us! High numbers will not help in the assessment process when we come back and question you on them. We need to believe that they are achievable.

Remember if you have any questions on this or need help with the application form please call us on 020 7582 5117 or email applications@londoncf.org.uk

To complete the impact section on the form

1. Select the theme from the drop down list – this will give you the range of outcomes in the drop down list attached to the impact theme.
2. Then select your 1st outcome from the drop down list
3. This will then open up the available indicators – select the indicators and fill in the anticipated numbers. **Please remember to tick the indicators that you have selected**
4. Then select your 2nd outcome from the drop down list
5. This will then open up the available indicators – select the indicators and fill in the anticipated numbers. **Please remember to tick the indicators that you have selected**
