## **Thamesmead Community Fund – Online Application Form Guidance** **(for Organisations and Individuals)**

These are guidance notes for both the ‘organisation’ and ‘individual’ applications to help you complete some of the key questions in the online form for the Thamesmead Community Fund at The London Community Foundation. Most of the questions remain the same for both individuals and organisations, except Section 2 and Supporting Documents, where different information is required (see below).

### **Tips:**

- You can also click the ⓘ symbol next to question on the online form for help on how to respond.
- Each of the large text boxes will have a maximum word limit of 250 words unless stated otherwise.
- Text boxes/fields marked with a \* need completing – without an answer you will not be able to submit your form.
- It is a good idea to draft your responses (particularly in Section 3) using a word processing programme such as Microsoft Word, so that you can check your spelling and word count as you go along.
- As you enter your information on the online form, remember to save your progress periodically by clicking on the ‘Save Changes’ or ‘Next’ button at the bottom of the page, to prevent you from losing your work in case of internet issues.
- **Only check the ‘Mark as Complete’ box on each page when you are ready to submit the form. Ticking this button will lock your access to this section and you will need to speak to a member of LCF to regain access.**

### **Registration on the Fundseeker Portal**

The London Community Foundation has recently upgraded their Data Management system and all applications will now be submitted via the Fundseeker Portal which will hold all of your ongoing and previous applications, enabling you to refer back to them and their outcomes easily.

First, please go to the website - <https://londoncf.my.site.com/fundseekerportal/s/login/>

Next, you will need to register your FundSeeker Account. Unless you are already registered please click the ‘Register here’ option. Otherwise please login using your username and password.

This will take you to a new page, where it will ask you to state whether you are applying as an individual or an organisation and if you have applied to The London Community Foundation in the past. If you have

previously applied, your details should be stored on our database, so we will need you to fill in some basic details to help identify you. Alternatively, you'll be asked a couple of questions around eligibility before you can fill in your details. If you are a new applicant, you may be asked to complete further details about your organisation.

The system will then send you an e-mail to verify your address with a link you should use to create your password, before fully logging into the system where you should find three red boxes:

To access the application form please click on 'Funding Programmes' and select the programme that is relevant to you:

- Thamesmead Community Fund (Organisation) – for organisations
- Thamesmead Community Fund (Individual) – if you are applying as yourself

Please read the Fund Description carefully before clicking the 'Apply here' to start your application.

#### **Section 5: Themes and Who will Benefit (For Organisations and Individuals)**

##### **Primary Theme**

Please use the drop-down function on the left-hand side of the form to select the theme that best fits your proposal. You can use the options in the right column to select any secondary themes you feel your project addresses, holding down Ctrl if you wish to select more than one.

(This section is based on The London Community Foundation framework and are standard across all programmes, so while you have already highlighted which fund themes you are working on, we also need this data to compare your impact against other projects funded by other programmes.)

##### **Primary Activity**

Use the dropdown list to select the option which best describes the nature of your proposed project.

##### **How many people will directly benefit from this activity?**

Please estimate the total number of people who will participate in / benefit from the proposed project. We realise that you may not be able to give exact figures but please estimate as accurately as possible. This information is important and will be used to evaluate the project at the end of the grant period.

##### **How many people will indirectly benefit?**

Please estimate the total number of people who will indirectly benefit from the proposal, i.e. not take part but whose lives may improve as a result of the project. This might include partners, family members, local businesses or members of the public who see an improvement to local spaces within the next twelve months.

##### **How many of the participants will be adults (aged 18 and over)?**

Please tell us the estimated number of adults who will take part in/benefit from the project.

N.B. The number of adults given in this answer and the number of children (to be answered in the next question) should equal the total number of people you estimate will benefit from the project.

##### **How many of the participants will be children under 18?**

Please tell us the estimated number of children who will take part in/benefit from the project.  
N.B. The number of children given in this answer and the number of adults (answered in the last question) should equal the total number of people you estimate will benefit from the project.

### **Beneficiaries**

From the **drop-down list**, please click on the one group that best reflects **the majority** of the **beneficiaries** of your organisation, this will then be entered in the selection box on the lefthand side of the form. You can then use the right-hand column to select any other relevant groups that will be affected, remembering to use Ctrl & Click to select more than one option. Please don't select them all if they don't apply, just think about who the primary beneficiaries will be. This doesn't have to be 100% accurate, you're just giving an indication.

### **Ethnicity**

From the **drop-down list**, please select one **ethnic** group that best reflects **the majority** of the users of your organisation and enter it in the box provided. Then, using the left-hand column, select any other ethnic groups that will benefit. Please only tick the groups who will benefit.

### **Gender**

It would be useful for us to identify any targeted support going to various genders within the community, so please use this drop to indicate if you are aiming to support a specific gender of the community as a whole, by using the 'All Genders' option.

## **Section 6: What Will it Cost (for Organisations and Individuals)**

### **Project Budget**

This section asks you to provide details regarding the amount of money you are applying for and what type of items you will be spending it on.

#### **How much money are you applying to the Thamesmead Community Fund for?**

The maximum you can ask for is £3,000, and you can request the full cost. Project costs are the priority for this Fund (i.e. sessional and activity costs), although some running costs can be requested. The total cost here should not include in-kind costs, such as free venue hire.

#### **How much will your project/activity cost in total?**

Where a project costs more than the amount you are requesting, please give the total cost here.

#### **How much has been raised so far?**

If you are not asking us to fund the full costs, how much have you raised already? If none, please enter 0 in this box.

Alternatively, where you are asking us for the total project cost, please insert 0 here.

### Are you seeking other funding towards this project?

Please use the drop-down options to indicate whether you are seeking funding from other organisations.

### Budget breakdown

Here you itemise the costs that will be incurred in running your project only. The headings (staff costs, volunteer costs, etc.) are examples of types of costs and the amount – you do not have to put a cost in each heading if it does not apply but there may be others that you need to include.

Since this is for **project funding**, we cannot provide general core funding through this grant. However, we are committed to covering the full costs of the project, including the indirect costs related to delivery. For example, while we cannot cover the full costs of a bookkeeper, we can cover an amount that is proportional to the activity taking place. This can be 5% of the annual cost, e.g., 5% of cost of an administrator to monitor the project. All application budgets will be reviewed for appropriateness so we do not have a firm minimum or maximum for overhead costs. However, typically we will expect indirect costs to be capped at 20% of the overall budget.

There are two cost boxes, one for the **total project cost for that type of cost** and one for the **amount you are applying to us under that cost heading**.

The cost breakdown also allows you to enter the details behind the cost summary. These details should only refer to the elements of the project that would be covered by a grant from us. Please give us a full breakdown of the costs as shown in the example below.
